what role did the courts play in the demise of germany s first democracy and hitler s rise to power
courtroom to revolutionary stage challenges the orthodox interpretation of weimar political justice
henning grunwald argues that an exclusive focus on reactionary judges and a preoccupation with
number crunching verdicts has obscured precisely that aspect of trials most fascinating to
contemporary observers their drama drawing on untapped sources and material previously
inaccessible in english grunwald shows how an innovative group of party lawyers transformed dry
legal proceedings into spectacular ideological clashes supported by powerful party legal offices
which have hitherto escaped scholarly notice almost entirely they developed a sophisticated
repertoire of techniques at the intersection of criminal law politics and public relations harnessing
the emotional appeal of tens of thousands of trials communists and emulating them national
socialists institutionalized party legal aid in order to build their ideological communities
defendants turned into martyrs trials into performances of ideological self sacrifice and the
courtroom into revolutionary stage as one prominent party lawyer put it it is this political justice as

revolutionary stage that most powerfully impacted weimar political culture while it helps to explain weimar's demise this argument about the theatricality of justice transcends interwar germany trials were compelling not because they offered instruction about the revolutionary struggle but because in a sense they were the revolutionary struggle the ideological struggle their message ran left no room for fairness no possibility of a neutral platform justice was unattainable until the republic was destroyed

in 1917 burlon wood on the western front was the scene of fierce back and forth fighting between the british and the germans with british gains on at least one occasion thrown away by lack of proper follow up the wood formed the left flank of the massive british tank attack at cambrai the first of its kind on november 20 1917 burlon wood once again came into prominence in september 1918 with the attack of the canadian corps against the german defenders an action that rivaled the canadian assault on vimy ridge

following the early battles of 1914 along the marne and in the ypres salient world war i rapidly changed from a war of movement into one of attrition with the opposing sides entrenching themselves in a line of fortified positions from the flanders coastline to the swiss border this volume details the different styles of fortification used on the western front throughout the course of the war from the early ditches of 1914 to the complicated systems of 1918 it explains the development of the defence in depth german system and the british reaction to it as well as illustrating the importance of the pre war forts particularly around verdun

revered as the epitome of german militarism and moral decency field marshal paul von hindenburg was one of the most popular and dominant figures of the great war and of 20th century germany alongside erich ludendorff he secured a crucial victory over

the german a7v and the british mark iv were similar in weight size and speed but differed significantly in armour armament and maneuverability the a7v had thicker armour and had nearly double the horsepower per ton the mark iv's pair of side mounted 6pdr cannons forced the vehicle to present its side arc to an enemy in order to fire one of its main guns possessing twice as many machine guns as the mark iv the a7v had a frontally mounted 57mm gun that proved capable of defeating the mark iv's armour the mark iv's rhomboid design proved superior in crossing trenches climbing obstacles and moving over rough terrain as the first tank versus tank engagement in history the fighting around villers bretonneux showcased the british mark iv and german a7v designs although not purpose built to combat enemy armour both vehicles proved the viability of such operations which during the postwar period led to key advances in suspension armour gunsights ammunition and command and control while the british continued to develop their armoured forces german armour development never materialized and only in the postwar period did they address the issue
